20160506 Butler_Mikucki Approval of Wayne Facility for DASS wastes.pdf

Good Afternoon Elizabeth,

Per the attached email USEPA previously approved the use of the Wayne Facility for DASS wastes. I wanted to let you know that the poly tank referenced in the email is scheduled to be disposed of on Monday 2/6. In addition to the poly tank, we are scheduled to dispose of the old clarifier which was previously used in the GWTP. Both the tank and clarifier have been pressure washed. Please let me know if you have any questions.

Thanks

Brian Mikucki
